

BUILDING THE FUTURE

MD'S DESK

The rich history of Aparna Enterprises Limited (AEL) is marked by transformative junctures that have indelibly moulded its trajectory towards prosperity. The company's foray into diverse business realms stands as a cornerstone of its remarkable expansion. Reverberating at the heart of this journey is AEL's unwavering dedication to unparalleled customer experience and ceaseless innovation, alongside the willingness to embrace emerging technologies and agile navigation through evolving market landscapes that has propelled the brand to greater heights.

Spanning over three decades, AEL has etched an enduring legacy as a vanguard in crafting superlative construction materials, all the while fostering environmental stewardship. AEL's accomplishments and triumphs arise not solely from the excellence of our offerings, but also from the zeal of its human capital and an unwavering resolve to pioneer innovative solutions for formidable challenges.

Designed to improve efficiency, safety and sustainability, our products and services not only meet the needs of our clients but also contribute to the growth of the nation. Overall, we aim to be a responsible and sustainable corporate citizen, supporting the nation.

Mr.Ashwin Reddy
Managing Director

In our view, “a business exists to enrich the customer experience, exceed customer expectations and deliver customer satisfaction”. Over the years, Aparna Enterprises Limited (AEL) has created an exclusive identity as one of India's most innovative, reputed and respected manufacturers of building materials. The globally renowned company takes pride in setting new benchmarks in technology, research, design, and quality, having been associated with several landmark projects for over 30 years.

Ms.Aparna Reddy
Executive Director

E.P.I.C

OUR TACTICAL STRATEGIC APPROACH

Evolve

By making manufacturing operations our key company endeavor, we distinguish ourselves ahead of the competition each time, every time.

People

Greater workplaces are created by greater minds. Investing in people equally is critical to investing in infrastructure and technology.

Innovate

Every year, AEL innovates, whether it's by streamlining a straightforward process or altering an established practise to enhance value.

Collaborate

Our collaborative approach with our partners & dealers has helped us grow into a robust network today.

Vision

As a leader, Aparna Enterprises continuously strives towards innovation with a persistent focus on excellence and quality in all its products and services. Aparna Enterprises aims at redefining real estate and setting high industry standards. The company intends to build a future based on the following vision:

To provide high quality building-materials and continue to raise industry standards

To raise tough questions and provide benchmark solutions in every aspect and detail of building-materials

To become the employer of choice in the industry by attracting the best of talent, incubating and inspiring them to exceed industry standards

To bring world-class technologies home and constantly strive for technical advancement

Mission

Our mission is anchored upon our deep-rooted belief and realization that every building manifests noble aspirations and solid purpose and is as follows.

To engineer excellence and build world-class materials while setting new benchmarks and standards in the industry.

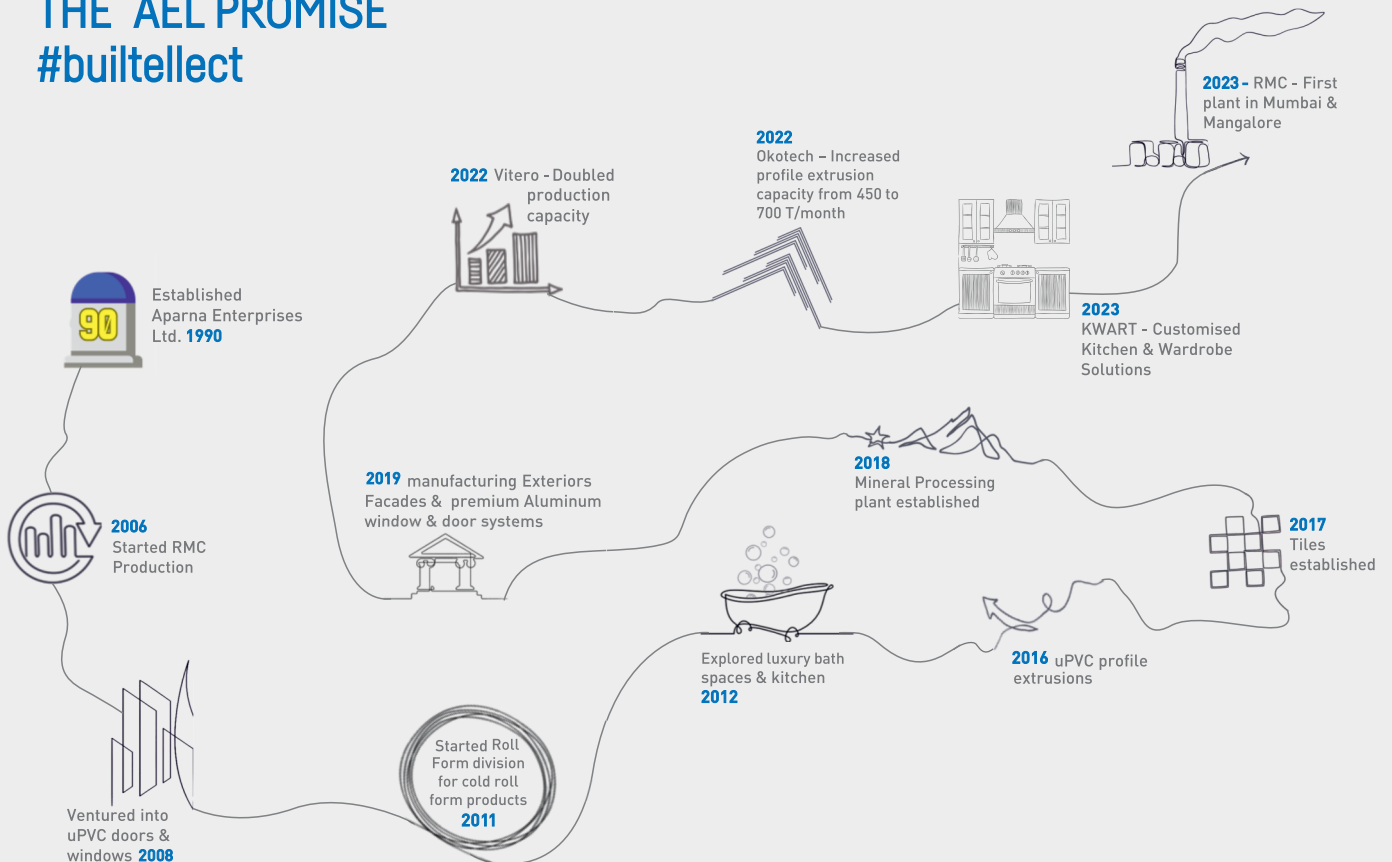

To build and nurture trusted partnerships that align with our core values and commitments and scale the Indian construction space to newer heights.

Values

• Integrity • Value Relationships • Consistency • Transparency • Professionalism • Future Readiness

THE AEL PROMISE

#builtellect

AEL plays an instrumental part in the development and execution of numerous projects in the infrastructure, healthcare, commercial, and residential sectors. Installation of office buildings, shopping malls, housing developments, and warehouses are all considered commercial enterprises. Healthcare facilities, including hospitals and clinics, are the main emphasis of hospital building, which also ensures the integration of specialised infrastructure and medical technology. Construction of essential public facilities including highways, bridges, airports, and utility networks is included in infrastructure projects. Throughout these industries, AEL is essential to realising architectural aspirations, obeying safety standards, and producing products that are tailored to the individual requirements of customers and communities.

Today, Aparna RMC is the leading producer of ready-mixed concrete with the biggest single pouring capacity. It has the largest production footprint across Telangana, Andhra Pradesh, and Karnataka and uses the most expansive mixing technology.
